

Here is what some of our alumni's parents had to say about JIRS

I am very happy about the way Neeraj handles himself in college and his achievements on the cultural front. Being the cultural secretary during his last year in school definitely provided him with the foundation required to face challenges when he went out of the protective shell called JIRS.

I wish there were more schools like JIRS where the children got a chance to develop their talents to the fullest.

Ms. Ammu

I would like to thank all the staff of JIRS for putting so much of efforts to transform my son Vardan into what he is today. I am very proud of him.

Ms. Sheetal Beri

There is not a day when my daughter has not mentioned about JIRS and what a great time she had there! She is going to cherish those memories for a life time!

Mr. & Mrs. Santosh Gupta
