

WORKSHOP BY JIRS ALUMNI

JIRS alumni **Master Rohit Mundra** from **Stanford University – Post Graduation in Electrical Engineering** and **Master Rahul Bhattacharya** from **Waterloo University – Software Engineer** made themselves accessible in the campus to hold a workshop during their break time in India. The workshop held between **7th to 17th July 2014** was of International standards for our students. 40 achievers of JIRS were selected for this workshop.

Vaibhav Tripathi, an alumni currently pursuing **B.E in Information Technology from NIIT, Suratkal**, conducted a workshop for the students on the **Application of Micro Controllers**. The students of class 12 were part of this workshop and they designed, constructed many Robots, learnt about electronics, printed circuit boards, designs and constructions. The students gained immensely from these workshops.
