# JAIN INTERNATIONAL RESIDENTIAL SCHOOL

A very Good morning to one and all present here. I heartily welcome you, dear parents, to this 20th year, of JIRS journey, towards excellence.

It's a great pleasure to have you all here on this auspicious event, of our precious children's Annual day celebrations.

Success is a metaphor echoing in every human heart. The entire civilization's tremendous exponential growth is constantly being influenced and shaped by the core inherent God-given traits of CHOICES AND DECISIONS in human beings. This choice and decisions sensitizes core growth at every level from TODDLERS to OLD AGE from POOR to RICH from NON EDUCATED to EDUCATED and so on.

The influence is extraordinary and so unique characteristics. This choice and decisions which will MAKE or MAR the life of an individual and raise one to the top echelons of industry, politics, and corporate management or stagnate one at a mundane life level.

**CHOICES AND DECISIONS**

**CHOICES AND DECISIONS**

**MAKE or MAR**

**LIFE OF AN INDIVIDUAL**

Life is All About Choices

Look carefully, messages from iconic world leaders of huge corporates has lot of depth and learnings of successful life paths, CEO- Google, our own Sunder Pichai on taking over as Google CEO was flooded with horde of press people seeking an insight to his success story. He stated that he has been CEO of many big corporates but he also signs up 8-10 online courses every year from Harvard, Stanford, Oxford, Ivy universities and, manages to complete at least 2-3 of them. So this great achiever has taught us time management and value of time. All parents here, are extraordinary icons in business and corporate industry, you have driven yourselves for more than 12 to 14 hours to empower your companies into citadels of successes. There is no short cut. Sir, are

we planning our family diamonds growth in a 12 hours platform or we are happy with 6 hrs of academic routines. If plans are ordinary, ordinary will be the outcome.

BEST CHOICE

Parenting is an enormous responsibility since we take on God’s role on earth. Only we plan where the child will stay, what he will wear, where he will study, what extra leadership platforms we provide, only we plan for our child. Our huge ordinary planning will either make a child ordinary or extra ordinary, it is scary to imagine that no friends, no relatives, only mummy & daddy here are responsible for our child’s life growth and nobody else. Think carefully please, we are the Gods for our children, have we made an ordinary plan or an extra ordinary plan.

The modern-day child psychologists have emphasized that only IQ, the intelligent quotient only will not determine the child ‘s success in life alone while the real catalyst is the EQ, the emotional quotient which will determine the real value of one’s excellent IQ. There are more than 50 IIT students who have committed suicide. Their EQ, was weak. Hence the challenge for the primary objective of education is empowering this versatile future generation by enhancing their EQ- soft skill ability by talented high achievers as their guides.

As you sow so shall you reap. The simple statement encompasses the entire concept of life path planning by the parents. Today ordinary parenting and ordinary teachers and mediocre schools will fail to ignite a plethora of latent potentials with an out dated mundane pedagogy churning mediocre personalities which is so grossly unfair to a gifted child’s exponential growth.

The child's inability to manage time and resources has caused an emotional disconnect with family and society. This real and virtual divide is accelerating alarmingly causing highly stressful choices and decisions. These choices and decisions linked to an ordinary limited programme will cripple the huge potentials of a child. Every child's need in today's complex environment is an experienced, professional motivator to highlight his choices and decisions and lead him to a life path befitting his innate potential.

## MEDIOCRE PERSONALITIES

- **Today Ordinary Parenting**
- **Ordinary teachers at mediocre schools**
- **Fail to ignite a plethora of latent potentials with an out dated mundane pedagogy.**
- **Churning mediocre personalities**
- **which is so grossly unfair to a gifted child's exponential growth.**

## EMOTIONAL DISCONNECT

- **The child's inability to manage time and resources**
- **Causes a emotional disconnect with family and society.**
- **This real and virtual divide is accelerating alarmingly.**
- **Causing highly stressful choices and decisions.**

Parents should watch out in the home comfort zones for signs of isolation or withdrawals that can result from over use of online media specially cyber bullying to addictive tendencies towards internet. Most of the times it's a downside and ever widening gap of constructive conversations between the parents and child leading to spending worthless hours on the internet and growing addiction. Today parenting at home comfort zones should don role of child psychiatrist, counselors as one wrong step by the child and parent's ignorance will see total downfall of child's future career life.

**Professional motivator to highlight his choices and decisions and lead him to a life path befitting his innate potential**

**Over use of online media specially cyber bullying to addictive tendencies towards internet**

Parent's ignorance will see total downfall of child's future career life

I have many parents posing serious concerns on the child’s addiction to hours and hours of mobile phones / internet till late nights and rarely of educational values poisoning the child’s mind and weaning him away from a remarkable growth platform. These are vices of modern technology which is flooding uncontrollably and incapacitating parental control. Sir, this scenario at home is scary.

I have seen thousands of students walking through their life path and quite a few years under my foster parental care. It's shocking that the most core human quality of development of self-esteem of hard work is immensely lacking. Today children who come to us for the first time from day schools and home comfort zones are generally found to be disinterested in leadership skill activities shockingly even sports. They just want an easy fun time. They want mobiles, they want internet, they want outings as they have a very laid back attitude. It takes us immense effort to put them in our 12 hours of quality enhancement programmes.

▪Today children who come to us from day schools and home comfort zones

Are generally found to be disinterested in leadership skill activities shockingly even sports. They just want an easy fun time.

They want mobiles, they want internet, they want outings as they have a very laid back attitude.

### WHAT DO CHILDREN WANT TODAY

#### **SHOCKING**

- **No hard work**
- **Only Mobiles**
- **Only Internet**
- **Not interested in Studies**
- **Not even Sports**

Today our hearts swell with pride when our children conquer world universities with huge scholarship. We have 100's of children in top US universities.

## IMPLICATIONS ON PARENTING – MASTER PLAN

Sir, as top business industrialists and corporate heads, I am sure you would reject an employee with 95% academic marks but with a totally mediocre weak personality, lacking communication, decision making ability. There are serious implications on parenting too. Parents must have a structured plan of 50% academics and 50% leadership soft skills. A complete failure of the leadership soft skills is our own child's failure in his adult life path.

So what is JIRS's success plan? So what makes JIRS children successful in world forums – The unique edge. Every school in the country has only one principal. JIRS has 6 Principal / Heads for each of the 6 department pillars. This is unique.

## JIRS – THE UNIQUE EDGE DEVELOPEMENT PLATFORMS FOR MD’S / CEO’S OF COMPANIES PERSONALITY DEVELOPMENT DEPARTMENT

A unique high end professional personality development department has been established with corporate professionals at its core planning. Kudos to Mrs.Ambuj Sharma, Mr.Rudra Kumar Sharma, Mr.Raghavan, Senior Executive from MNC, Mr.Ganesh, Mr.Tripati and Mr.JanardhanBabu, Ms.Pratibha.S and all other teacher mentors

- A 14-15-year-old is presenting himself as Managing Director of a company
- For 30 minutes, every week after week.

Kudos to these specialist staff for ensuring more than 250 launching of products as corporate heads by students on JIRS YouTube. – 2019

## SUCCESSFUL JIRS ENTREPRENEURS PERSONALITY DEVELOPMENT AND LEADERSHIP NURTURED AT JIRS

JIRS is the only school sowing the seeds of entrepreneurship at the school level. What is done in MBA and PG level is done by students at school level at JIRS. Entrepreneurship has been at the core of JIRS knowledge and leadership revolution. With a master stroke, Shri Roychand Chenraj, with this vision, has enriched this country with thousands of children opting for new “start-up” companies surmounting hurdles and establishing themselves into a plethora of successful businesses underlying the coming “era of young business leaders”.

We now proudly announce our own children of JIRS who have blossomed in to wonderful Entrepreneurs. Hundreds of children have lived up to JIRS's ideals of being job givers and not to be job seekers
