Adaptive Learning
Adaptive testing modules for personalised learning
Each lesson and course intuitively adjusts itself to the learning pattern and aptitude of the child.

Traditional Learning VS The Byju’s Way of Learning

LEARN FOR EXAMS...
AND ALSO, LEARN FOR LIFE

GALLERY
The Learning tool designed by Byju’s is a huge boon to students like us. It’s like having a teacher with you 24/7. The tab is very informative and provides knowledge in great depth. It also helps in making-up missed out lessons and clears doubts. The Byju’s learning app incites a thirst for learning within every student. Last but not the least, the quality of teaching is very student-friendly and provides clarity.
Abhinav N, Bangalore, Class 11

I was initially skeptical of giving a tablet to my son of whether he would study or just use it for games. I’m pleasantly surprised that even once, I’ve never asked him to study and he does it all on his own. I’m able to see his progress on the Byju’s Mentor App which I’ve downloaded on my mobile. I can see how he has improved over the last month or even the last week. The results have shown in his mid-sem exams. We are eagerly waiting for the next year course now.
Anita R, Chennai, Parent of Class 10 Student

Learning at Byju’s is really a nice experience. They teach us in a very simplified manner and that gives us the motivation to study for all these competitive exams. Wonderful teachers are present to clarify any doubt that we may have. The two years of coaching that I have taken at Byju’s is an unforgettable experience for me.
Nitesh Kumar Jha, Bangalore, Class 12

Byju’s classes has been an excellent experience for me, and I feel that I took the right decision by joining this institute. The faculty and the admin staff at Byju’s have always given me the confidence to achieve my goals. The constant support and guidance from the teachers have helped me develop confidence to face the competitive exams and do my best. The teachers are very friendly, approachable and always available for any sort of help. Their unique style of teaching and explaining the subject, makes understanding any concept simple and easy.
Sharada, Bangalore, Class 12

A Teacher to guide you at every step

- Detailed records of your tests and performance are sent to the mentor
- Using analytical tools to chart performance patterns, the mentor prepares a custom lesson plan
- Student and mentor connect for 1-on-1 session

No random doubt clearing by a random teacher but direct, to the point doubt clearing by a teacher who knows everything about the way you learn, making it highly effective.
